## PROFESSIONAL PROFILE

A motivated and detail-oriented Business Analytics undergraduate with a strong interest in data-driven decision making and business intelligence. Possesses foundational knowledge in SQL and Microsoft Excel, with introductory experience in Python, and is currently developing skills in Power BI and data visualization techniques. Demonstrates the ability to analyze data, identify patterns, and support effective business decision-making. Passionate about transforming data into meaningful insights that drive organizational performance. Seeking an opportunity as a Business Analyst Intern in a dynamic and competitive environment where I can apply my analytical mindset, contribute to real-world business solutions, and continuously enhance my technical and professional skills.
